

We are Making Every Game  
CRYSTAL CLEAR

# WHAT'S IN SIDE

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

# LEDECH®

LEDECH, established in 2024 in Ankara, Türkiye, is a technology-driven company focused on LED-based solutions, digital scoreboards, and automation systems. With a strong foundation in engineering, R&D, and software development, LEDECH has become a trusted name in sports technology, offering products that meet the highest international standards.

Our expertise lies in designing and manufacturing professional scoreboards and display systems for various sports disciplines. From local gyms to international arenas, LEDECH scoreboards are built to deliver clarity, accuracy, and reliability during every game. We have also participated in international basketball championships in various countries, proving the quality and global trust in our products.

# What Sets It Apart

- Supports Turkish, English, and French, with 157 characters including German, Azerbaijani, Turkmen, and Uzbek.
- Operates in wired or wireless mode; up to 4 hours wireless use with 1-hour charging.
- User-friendly interface with full compatibility with Splash Meet Manager.
- Allows testing of all equipment and recovery of delayed races.
- Stores up to 50 races, 128 event orders, and 100 flash event orders.
- Real-time lane error monitoring on both lane box and controller.
- Time measurement accuracy and precision to 0.00 seconds

# SWIMMING SCREEN TYPES

## DIGITAL TYPE

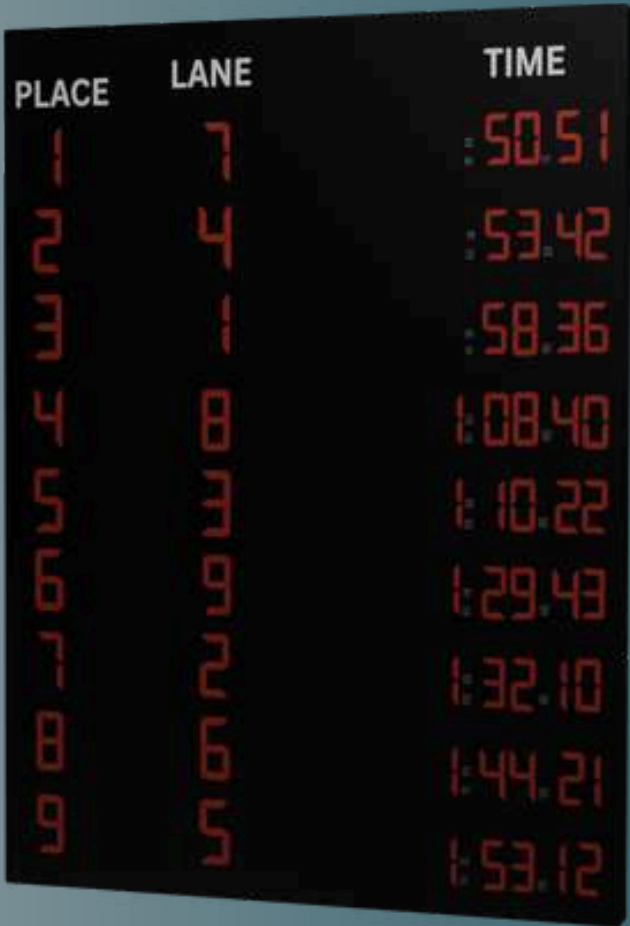

A digital swimming scoreboard displaying race results. The top section shows the event name '2. Erkekler, 200m Freestyle', the pool number 'L: 4/4', and the current time '11:08.9'. Below this is a table with columns for Lane (Ln), Place (Plc), Name, Team, and Time. The data is as follows:

Ln	Plc	Name	Team	Time
			TUR	1:20:35
4	3	Liam Parker	TUR	1:21:11
8	7	Ethan Carter	TUR	1:21:37
6	5	Noah Mitchell	TUR	1:23:40
1	9	James Walker	TUR	1:25:51
7	2	Samuel Turner	TUR	1:29:35
2	8	Alexander Cooper	TUR	1:36:45
3	1	Daniel Morgan	TUR	1:40:53
5	4	Henry Bennett	TUR	

### LED Screens for Aquatic Sports

- Available in all dimensions to meet customer requirements.
- Optional software integration upon request.
- Multiple display options for flexible use.
- Compliant with World Aquatics standards.

## NUMERICAL TYPE

A numerical swimming scoreboard displaying lane numbers and times. The top section shows the event name '2. Erkekler, 200m Freestyle', the pool number 'L: 4/4', and the current time '11:08.9'. Below this is a table with columns for Place, Lane, and Time. The data is as follows:

PLACE	LANE	TIME
1	7	:50.51
2	4	:53.42
3	1	:58.36
4	8	1:08.40
5	3	1:10.22
6	9	1:29.43
7	2	1:32.10
8	6	1:44.21
9	5	1:53.12

### Numeric Swimming Scoreboards

- Displays swimmer classification during races.
- Shows lane number and finishing time with precision.
- Available in all dimensions, tailored to pool requirements.
- Produced according to lane configuration and competition needs.

# TOUCHPAD

WORLD AQUATIC  
STANDARD TOUCHPAD

- Available in two dimensions:  
-2400×90×10 cm (WORLD AQUATIC standards)  
-1900×90×10 cm
- Adapted to project requirements and pool lane dimensions.
- Ensures millisecond time precision with full system synchronization.
- Smooth and sensitive touch response for accurate swimmer detection.
- High-quality materials designed for durability and safety.
- Seamless connection with the complete timing and display system.

# Race Starter

- Works synchronously with the swimming timing system.
- Equipped with microphone, tripod, and connection apparatus.
- Strobe light activates simultaneously with the start sound.
- Supports up to 20 external speakers.
- Programmable start tune settings.
- Powered by rechargeable Li-Ion battery.

# Deck Plate & Lane Box

Deck Plate

Lane Box

## Deck Plate / Lane Boxes

- Two solutions with the same function.
- Deck Plate: embedded system for permanent installation.
- Lane Boxes: portable system for flexible use.
- Both fully compatible with the swimming timing system.

# SWIMMING Console & Timer

Advanced swimming timer console ensures reliable, precise, and user-friendly race management for professional competitions.

- **Seamless Connectivity:** Communicates directly with touchpads, relay take-off platforms, buttons, numeric or graphic scoreboards, and the Splash program.
- **Instant Data Output:** Race results are immediately available via the external thermal printer.
- **Comprehensive Testing:** All connected equipment can be tested simultaneously for smooth operation.
- **User-Friendly Interface:** Intuitive design enables quick access and faster race data verification.
- **Efficient Power Management:** Equipped with fast charging; one hour of charge provides an average of 4 hours of use. Battery status is displayed live on the screen.
- **Race Rescue Function:** Supports recovery of races that could not be started on time.
- **Ample Memory:** Stores up to 50 races, 128 events, and 50 flash orders for flexible meet management.

# Thermal Printer

The dedicated thermal printer ensures fast and reliable output of race information during competitions.

- **Instant Results:** Prints current race data, as well as current or previous race results.
- **Easy Paper Handling:** Thermal paper rolls can be replaced quickly and effortlessly.
- **Flexible Split Time Printing:** Supports both subtractive and cumulative split time formats for detailed analysis.

# STARTING BLOCKS

Our starting blocks are designed for accuracy, comfort, and reliability in professional swimming competitions.

- **Available in two types:** standard and relay with reaction system.
- **Standard Block:** Stable, ergonomic, and reliable for all swimming events.
- **Relay Block:** Measures swimmers' starting reactions and relay take-off times for precise, fair results.
- **Adjustable Heel Plate:** 5 position settings for optimal comfort and power.
- **Durable Design:** Anti-slip surface and robust build for long-term use.

Second Model offer a simple, durable solution for training and competition, available in different models to fit pool requirements: with step (no need for extra platform) or without step.

- **Safe & Stable:** Non-slip surface and strong build for secure starts.
- **Practical Choice:** Reliable and cost-effective for any facility.

# ELEVATING PLATFORM

According to the standards, the Swimmer should be 70cm higher from the base floor, usually the starting blocks high is 40cm so there will be a need for an elevating platform with 30cm height

*Some Types of Elevating Platform :*

# At Ledech, we love what we do and who we do it for

At Ledech, we deliver complete scoreboard solutions — from compact models to large-scale video screens, as well as fully customized designs tailored to our customers' needs.

Every project is handled with the highest level of professionalism, supported by our skilled and service-oriented team.

We ensure our products meet the latest standards and regulations, and we continuously update and refine our solutions to provide reliable, future-ready scoreboards.

## Careful product verification

To guarantee reliability, we perform rigorous quality checks both during production and prior to dispatch.

# PACKAGING

At Ledech, we have developed and refined our packaging standards over many years to ensure the safe transport of our scoreboards.

Each unit is individually secured in a wooden frame with cardboard padding, reinforced with protective corners and polystyrene for maximum safety during freight.

For shipments containing multiple scoreboards, the individually packed units are combined and stabilized with additional wooden reinforcements to guarantee a secure delivery.

Please

**note:**that while Ledech applies these packing standards to the majority of our products, adjustments may be made when required by specific circumstances.
